Note: This version of the game does not support macOS Mojave. If your Mac supports Mojave, it will still work fine. But if you want to play in a way that is native, then you will have to reinstall it. However, there is a solution to this problem. When updating to macOS 10.14, you should choose Mac App Store as the installation method. If you have not done so, you can do it now by following the steps: Open the App Store app. Search for Virtual Programming
